Synopsis

Veronica is a trans woman, who has been living for years in a gay partnership with her cis male partner, Chris. A Normal Day documents the day that Veronica comes out to Chris. Her close friend Alex is there to support her emotionally. Alex accompanies Veronica to the home she shares with Chris and waits outside to make sure she is safe. During the conversation, Chris gets visibly upset and begins to question their relationship and Veronica's experience. Veronica can see that there is no room for a productive conversation, so she leaves with Alex to give Chris some space. At Alex's house, they chat about how Alex's career in sex work is going, and the challenges they have been facing recently. Veronica and Alex take Alex's dog for a walk, and on the walk, Veronica gets a voicemail from Chris. He apologises for his earlier reaction and reflects on her bravery and strength in coming out to him.

Themes/protective factors addressed

- Institutional and cultural support for the safety, inclusion and equal rights of TGD people
- Open and flexible notions of gender, gender expressions and narratives
- Respectful relationships that value difference
